I am a motivated and ambitious person with **great passion for anything related to programming**, with also design and art skills. I am a **reliable, trustworthy and flexible** individual who can learn new skills easily and execute them swiftly.

## Experience

**Technical Designer — Farlands — JanduSoft S.L.**

**November 2023 — Now**

- **Designed and implemented many systems and tools**, such as an interactive furniture placing mechanic to a standardized color palette swapping across the whole game.
- Iterated and expanded systems based on feedback from a large playerbase (**+20k early access players**) driving positive user reviews **over 96% on Steam**.
- Worked closely with every department to ensure a frictionless pipeline on all borders.

**Junior Java Developer — Quality Clouds**

**April 2023 — October 2023**

- Developed features using Laravel and Spring in a Jenkins CI/CD pipeline.

**Unity Developer — Braingaze**

**April 2023 — June 2023**

- Solo developed an eye tracking app using ARKit for medical research purposes.

## Projects

**Game MechaMIX Vol. I**

- A recreation of two game mechanics from existing games alongside a level to seize these mechanics with.

**Game Jams**

**eSports event organizer**

- Organized multiple eSports events for Tecnocampus-UPF University.

## Education

**Double Bachelor's Degree in Computer Engineering & Video Games Design and Production** at Tecnocampus-UPF

**2017 — 2022**

## Languages

- **Spanish** — Native
- **Catalan** — Native
- **English** — C1
- **Japanese** — JLPT N3 (2024)

## Skills

### Software

- Unity
- Unreal Engine
- Visual Studio
- Jira
- GIT
- Slack
- Android Studio
- Adobe Photoshop
- 3ds Max

### Programming Languages

- C#
- C++
- Java
- Javascript
- PHP
- Python
- SQL

### Frameworks

- Spring
- MongoDB
- React
- Laravel
- Docker
- Angular
- NodeJS
